

THE BLAIRMORE ENTERPRISE

VOL. XIV., NO. 24.

BLAIRMORE, ALBERTA, THURSDAY, JUNE 14, 1923.

\$2.60 YEARLY

DEBENS NEW WHOLESALE STORE

Mr. A. F. Farley, who recently secured his connection with the Blairmore Wholesale Co., has opened up on his own under the firm style of Farley Wholesale. Mr. Farley has already started in, using a Chevrolet delivery truck to introduce himself

to his Pass friends. At present he is making use of temporary quarters, but hopes later to occupy the store soon to be vacated by Mr. S. Tromb. His line is chiefly confectionery and soft drinks.

The trout fishing season in Alberta opens tomorrow.

BLAIRMORE, — ALBERTA

KILLED BY A HORSE

A man named McCarthy, died on Sunday morning at the local hospital as a result of kicks received from a horse in the stable of the McLaren Lumber Co.

McCarthy was a blacksmith by trade and followed that profession in the employ of the McLaren Lumber Company.

It is not known how he came to be in the stable at the time. Another man entering the stable at a late hour on Friday evening found McCarthy lying prostrate a short distance from the heels of the horse that is believed to have kicked him. The horse is said to be hard of hearing and may have become excited when a hand touched him, not knowing anyone was approaching. The man's head and body and hands were fearfully battered. He was still alive, however, and was immediately rushed to the Blairmore hospital, but despite all efforts to revive him, he passed away on Sunday morning.

Having no relatives in Western Canada, it was decided to bury his remains here, and interment took place on Monday evening.

BLAIRMORE TO HAVE FINE NEW GARAGE

E. J. Pozzi has received the contract to erect a large garage on lots 4 and 5, in block 3, on Victoria Street, covering the site formerly occupied by the Mar On general store.

The new garage will be of 50 x 115 feet dimensions, of one storey with basement. The main floor will be of reinforced concrete, and the walls of brick tile.

Work starts tomorrow and it is expected the building will be completed ready for business by the end of July.

NOTE THEMSELVES

FREE LIGHT AND WATER

The regular fortnightly meeting of the town council on Monday night was not without the usual amount of interest and excitement.

There were present Mayor McLeod and Councillors J. Angus McDonald, J. A. McDonald, Owen Morgan, Ivan Morgan, W. Patterson and Secretary Wright. Ratepayers were more than ordinarily conspicuous by their absence.

The minutes of previous regular and special meetings were approved as read, and a batch of accounts totalling \$838.26 were passed upon. With exception of the account of the West Canadian Collieries, \$281.25, practically all were incurred in connection with fighting the recent floods and repair work necessitated since.

The resignation of Councillor Moroney was on motion by Councillors Patterson and J. A. McDonald accepted.

Mr. L. Y. Binnel, of Medicine Hat, had heard of the town's desire to purchase a street grader, and had one to offer for the sum of \$550. This machine, he claimed, had only been used a few times and was in excellent condition. As the council were already equipped in this regard, the communication was ordered filed.

Councillor J. A. McDonald called to mind the suggestion of the mayor at the previous special meeting that the chairman of the various committees prepare estimates of amount of money likely to be required for their departments for the "fiscal" year 1923-24. He felt it would be a good idea and that these estimates should be in the hands of the secretary as early as possible.

Application of T. Polizo for permission to build a porch to his residence was considered favorably.

Application of Blairmore Hardware Co., for permission to build a garage on lots 4 and 5 in Block 3, Victoria Street, was also granted. The plans and specifications accompanied the application and called for a building of hollow brick tile, size 50 x 115 feet, with cement reinforced floor. Mayor McLeod urged the council not to be too hasty in considering the application, stating that he had obtained legal advice on the matter, etc. The mayor did not express himself as being favorable to the proposition of building or locating a garage in such a busy section of the town and claimed that an agreement between the garage company and the town should be entered into to safeguard the town against liability in case accidents should occur, due to the location of the garage, and cited instances where garages at Medicine Hat and other cities were under such agreements. Councillor Evan Morgan supported the mayor. A vote was taken, resulting in four voting for the proposition.

Councillor Owen Morgan gave notice that at the next regular meeting of the council he would introduce a by-law setting a millrate of taxation.

A motion, fathered by someone, introduced by Councillor J. A. McDonald, would provide for "free light and water for members of the council while in office." Difficulty was had in securing a seconder for the motion, and in order to record the feeling of the council on the question, the resolution was seconded by Councillor Owen Morgan. A vote was called and the result was two voting for the motion, one against. Mayor McLeod declared the motion as carried, at the same time lifting his right hand as in the act of voting. It was understood that light and water free to private residences only was the intent of the resolution. In spite of the resolution, only one member of the council voiced himself as being favorable to the action, and it appears the resolution will not be put into effect.

Councillor William Patterson de-

Money Waste

The middle aged man, mindful of his past will urge you not to waste small sums. He will tell you too, with a sigh of regret, what he might have accomplished had he, years ago, realized the multiplying power of trifling sums.

Stop all the waste you can, and keep your money in a savings account where it will grow to help your future.

Double your Savings - It CAN be Done.

clared himself as opposed, at that time, to the effect that he would not receive compensation for his services as a councillor. Mr. Patterson admitted his resignation in writing, came to take effect immediately.

The resignation was read, but the council decided to take no action.

Councillor Patterson declared that his action in this matter is definite.

The question asked as to whether it was necessary to fill the vacancy caused through the resignation of Councillor Moroney, some members of the council felt that there was no necessity of going to expense at an election and that they could carry on as they were till the end of the year, in spite of the fact that Section 15 of the Towns Act reads: "If a seat in the Council becomes vacant by resignation or otherwise the Council SHALL FORTHWITH appoint a returning officer to hold an election to fill the vacancy, and such election SHALL BE HELD in the manner as nearly as may be as other elections under this act."

An account was submitted by H.C. James, being for the sum of eight dollars for two signs posted at either end of the town by the Board of Trade, wanted "SPEED, LIMIT 15 MILES PER HOUR." Upon the reading of the account by the secretary, it was immediately suggested by a member of the council that the bill be not recognized. Following an explanation by a member of the Board of Trade, however, the bill was passed for payment.

Sunday, June 24th, will be observed as Memorial Day by the Knights of Pythias and Pythian Sisters at Coleman, when the members will attend divine service at St. Alban's church at 7 p.m.

C. F. R. MAKE QUICK REPAIRS

In about eleven days following the great washouts in this district and the demoralization of highway and all other traffic, the C.F.R. had trains running on the regular schedule. The big Cowley bridge, which at first was expected would be unsafe for at least a month, was traversed by passenger and freight trains on Sunday last.

The floods of the river water in various parts of this district are still doing damage. The Blairmore tourist camps are still under water and until the river lowers considerably there is little chance of relieving it.

The government road repair gangs have started work both east and west of Blairmore. Several bridges have been so fixed up as to be made temporarily passable.

Owing to the condition of roads and bridges out west, tourist parties are obliged to ship their cars and equipments by train between Blairmore and Fernie and during the past week upwards of fifty cars have been thus transported.

BLAIRMORE MINES RESUME OPERATIONS

"Operations were resumed at the Greenhill mines on Monday and it is expected the mines will run steadily for some time to come.

Hillcrest mine is still idle, owing to the big spur traffic bridge being carried away by the floods. This bridge has practically to be rebuilt and the work is now going ahead in the hands of a C. P. R. bridge gang.

At Coleman there is somewhat of a tie-up, but it is only a matter of a few days now and the mines there will be in full operation.

The district convention of the K. of P. will be held at Coleman on June 24th.

IT PAYS YOU TO DEAL HERE

WORLD HAPPENINGS BRIEFLY TOLD

The King and Queen laid the corner stones of the hospital buildings being added to the University College Hospital and London University groups.

A license has been issued to the Duke of Devonshire which will enable him to bore for oil on his Derbyshire estate.

It has been decided to set up a great Allied War Memorial on the Somme battlefield, where the French and British armies fought side by side for four years.

The optum advisory committee of the League of Nations adopted the proposal of the French Government to increase the penalties against illicit traffic in opium and drugs.

It is announced that Bonar Law, during the early days of the war, had his estate valued and made a voluntary gift of one-quarter of it to the British Exchequer.

Formation of a Dominion-wide Canadian Laundrymen's Association, was proposed by the Ontario Association at the convention of laundry proprietors and managers held at Calgary.

George Barbot, French aviator, successfully completed a round trip gliding flight from West Point, N.Y., using but two of the three gallons of gasoline in his fuel tank in negotiations the journey of more than 100 miles.

The Rome correspondent of the Central News says that, according to Epoca, Gabriel d'Annunzio has gone to Turkey to join Mustafa Kemal Pasha. D'Annunzio left Rome by aeroplane for an unknown destination.

Sir Fod Bahadur Sapru, a former law member of the Indian Government, has accepted the invitation of the Viceroy, the Earl of Reading, to represent India at the Imperial Conference to be held in London in October next.

Negotiations are in progress to have former Empress Zita of Austria-Hungary and her children go to Italy and reside. Zita has expressed a desire to return to the Villa delle Vianore in the province of Lucca, where she was born.

The old-time moonbomber has practically disappeared from the Tennessee Mountains, and distilling there is 75 per cent. less than it was two years ago. State Director Smith has reported to Federal Prohibition Commissioner Haynes.

It is announced that there is practically an unrestricted supply of insulin now available in Britain through the ordinary commercial firms. The British medical research council is maintaining and safeguarding supervision of the quality.

Minard's Liniment relieves Burns, etc.

Why Lynching Flourishes

And lynching is always hard to stop, as an experienced Texas man pointed out to us the other day, because you can't keep men from showing their bravery when they have the numerical advantage of 600 to 1—Kansas City Star.

There is one car to every eighteen persons in Canada.

Sometimes a little credit is a dangerous thing.

MRS. WILSON'S STRIP

The latest and greatest remedy for the infant's colic, flatulence, and other troubles.

It is quickly absorbed and does not cause any harm to the baby.

At All Druggists.

W. N. U. 1876

Oldest U.S. Newspaper

New York Globe and Commercial Advertiser, Founded in 1793.

Announcement is made that Frank A. Munsey had bought the New York Globe and Commercial Advertiser. The Globe and Commercial Advertiser is the oldest daily newspaper in the United States, being in its thirty-seventh year. It has an unbroken record of publication since December 9, 1793. Other papers started earlier, suspended and revived, but none equals it in continuous publication. The Globe and Commercial Advertiser has undergone mergers and changes of name, but its career as an institution is uninterrupted for more than 125 years.

Its first editor was Noah Webster, author and founder of another institution that survives to this day, "Webster's Dictionary." Noah Webster and George Bunce, partners in the newspaper enterprise, signed their agreement on September 2, 1793, in Hartford, Conn., one of the chief capitals of United States Journalism.

Regulate the Bowels And You'll Be Healthy

To Overcome Constipation and to Keep the System Free of Wastes You Need

DR. HAMILTON'S PILLS

Always Prove a Mild, Yet Certain, Regulator

Those fortunate people who have proved the value of Dr. Hamilton's Pills know they set you on the path of performing a certain function at a certain time, and thereby restore normal conditions. Dr. Hamilton's Pills are best because they help nature help herself, and thereby keep the stomach strong, digestion good, blood pure, complexion clear, spirits bright and happy. Price 25c at all dealers.

Corn in the West

Expected 27,000 Acres Will Be Planted in Corn This Year

Corn raising will be fairly general on the prairie of the Canadian west this year, with more than 540 farmers engaged in raising, what was formerly regarded as a product of the torrid regions. W. D. Treglio, President of the Alberta Corn Growers' Association, is distinctly of the opinion that corn seed to farmers from as far south as Groulx to the Peace River country, and from as far west as Victoria, B.C., to Manitoba, in the east. It is expected that about 27,000 acres will be planted in corn this year.

BABY'S OWN TABLETS OF GREAT VALUE

Mrs. Hermadine Chagnon, Ste. Theodore, Que., writes: "Baby's Own Tablets have been of great value to me in keeping my little one well and I would not be without them. Thousands of other mothers say the same thing. They have learned by actual experience the value of the Tablets in regulating the bowels and stomach; banishing constipation and indigestion; breaking up colds and simple fevers; and keeping the baby free from the many simple ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

West the Store Cattle Ate

The first load of Canadian store cattle landed at Dundas, Scotland, consisting of six head, were 14 days on the water. During that time they consumed 800 bales of hay and 600 bags of grain.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge which, when taken by the children, kills the worms and keeps them from coming back. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

League of Nation Members

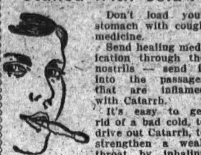

Forty-One Nations Were Represented At First Meeting

The League of Nations was created by the peace treaty signed at Versailles on June 28, 1919. The first meeting of the assembly of the League of Nations was held at Geneva, Switzerland, on Nov. 15, 1920, at which 41 nations were represented. These included: France, Great Britain, Italy, Belgium, China, Rumania, Portugal, Spain, Sweden, Japan, Holland, Brazil, Argentina, Chile, Colombia, Uruguay, Canada, Czechoslovakia, Switzerland, Australia, Bolivia, Cuba, Denmark, Greece, Guatemala, Haiti, India, Liberia, Nicaragua, Norway, Panama, Paraguay, New Zealand, Peru, Persia, Poland, Salvador, Siam, South Africa, Venezuela, Serbia.

An Odd Invention

It appears that among the many odd inventions of a more or less practical nature there are spectacles for horses. The purpose is said to be not to improve the sight, but by causing the ground in front to appear nearer than it really is, to induce the horse to take high steps.

Is Your Nose Stuffed With Cold?

Don't load your stomach with cough medicine. Send healing medication through the nostrils—send it into the passages that are stuffed with Catarrh.

It's easy to get rid of a bad cold, to drive out Catarrh, to strengthen a weak throat by inhaling Catarrhazone. Get Catarrhazone from your druggist today. By using it frequently you keep the air passages free from germs, and thereby prevent many a bad cold. Two months' treatment \$1.00; small size 50c. Refuse a substitute. By mail from The Catarrhazone Co., Montreal.

HONORABLY DISCHARGED

Detective Office,
Calgary City Police,
June 11th, 1923.

To Mrs. Eickerts,
Blairmore, Alberta.

Dear Ma'am—In regards to the recent charge which was preferred against your husband by a girl named Marguerite Polkey.

I beg to state that I was the officer who investigated the case, and after making the fullest inquiry into the case I was satisfied that he was not in any way the guilty party. Furth-

ermore the Police are not satisfied, so far, that such an offense was committed on this girl on the date she mentioned. Under the circumstances the police this morning decided not to go further with the case and your husband was honorably discharged without anything against his character. The girl herself is to my mind a little mentally defective and not altogether a responsible person.

Yours faithfully,
JAMES RAE, Detective.

In the Lundbreck district, the rainfall was six inches in nine days.

THEY WILL MAKE GOOD

Reports from Red Deer are that the alleged dissatisfaction of the newly arrived Hibernian Islanders was exaggerated, and that the newcomers are adapting themselves to conditions with no more than the normal amount of difficulty experienced by people who find themselves in a strange land and surrounded by unusual circumstances. If they have no real grievances to complain of, that is to be expected. The men who came from that part of the world to the western wilderness half a century ago were not given to disappointment. They were, before all else, industrious and thrifty, and as years went on many of the employees of the great trading company became men of substance and standing in the country. Blood tells, and what they did, the later comers from the same lands are likely to also do—Edna's Bulletin.

WANT LIQUOR BALLOT
MADE CLEAR

The following resolution was passed by the editors in convention at Jasper last week end:

"Whereas this annual convention of the Alberta Press Association is persuaded that there is a sincere and widespread difference of opinion throughout the province as to the real effect of certain of the questions on the ballot of the forthcoming liquor referendum and that this is bound to cause confusion and operate against a true expression of opinion, be it resolved that the government of Alberta be respectfully requested to issue an official statement of its interpretation of the effect of each question on the ballot paper; and in connection with each question a clear explanation of the kind of legislation it proposes to introduce in the legislature in the event of such question being carried."

Four of Fernie's hotel proprietors were arrested last week to answer charges preferred under the B. C. Liquor Act.

Through the small towns of British Columbia there is considerable opposition being exerted against the mid-week half holiday.

The Rev. Ben Spence is going to Scotland and the Kinross Review remarks: "There are occasions when we would like to be there ourselves."

Dr. Joseph Cunningham, of Boston, graduate of St. Dunstan's University, Charlottetown, P.E.I., died recently. His will provides a legacy of \$25,000 to build a memorial chapel for his Alma Mater.

The Methodist Episcopal church of Montana will be officially represented at the Dempsey-Gibbons battle at Shelby by a delegation of three ministers appointed by the state convention of Methodist pastors in Helena.

Now that Henry Ford's fortune has been estimated at \$350,000,000, let some young pupil of the public school figure out just how many German marks that sum would buy. The figures would make a very attractive paragraph for The Enterprise.

Malcolm Calder, who has held the position of superintendent of public works in Alberta for many years and who was a very conscientious and hard working official, contracted suicide at his home in Calgary last week. He brooded over the manner in which he was retired and while in a fit of temporary insanity took his life.

BLAIRMORE IS HIT

BY HAIL STORMS

Blairmore entertained hailstorms of unprecedented severity on Sunday and Monday afternoons of this week. Considerable damage was done to buildings, particularly windows and rubbered roofing, while garden truck was practically annihilated. In some parts of the town, rubber leaves were stripped and hop and other vines cut into sections as though done with a knife. Auto tops were in some cases ripped through. Hailstones almost as large as hen's eggs were picked up. An electrical storm followed on Monday and Tuesday evenings, when a real pyrotechnical illumination was witnessed for hours.

HECTOR CELEBRATION

Elaborate preparations are being made for the "Hector" celebration in Nova Scotia, June 15 to 21. A monument to be erected in the square at Pictou will bear a bronze plate with the following inscription:

1773-1923

In proud commemoration of the courage, faith and endurance of those gallant pioneers, passengers on the ship "Hector," who reached Pictou, September fifteen, Seventeen Hundred and Seventy three, vanguard of that army of Scottish immigrants whose intellectual ideals, moral worth and material achievement have contributed greatly to the good government and upbuilding of Canada.

Erected in 1923 and given into the perpetual care of the Town of Pictou, by St. Andrew's Society of New Glasgow.

"God of our Fathers be the God of their succeeding race."

PASTOR RAPS 'DRY' PLEDGE
NEW YORK, June 2.—Rev. Dr. Henry Vandyk, preaching this morning in the Bryce Presbyterian church, of which he has been pastor for more than 30 years declared that the recent Presbyterian general assembly at Indianapolis has made three mistakes. He blamed these in a large measure on William Jennings Bryan, although he never once called the commoner by name. Instead, Dr. Vandyk referred to Mr. Bryan as "the gentleman from Florida, late from Nebraska."

Dr. Vandyk declared the first of these "mistakes" was "to declare war between religion and science by denouncing and condemning the evolutionary hypothesis of man's physical nature, as 'anti-scriptural and atheistic.'"

The clergyman stated the second "mistake" was "the attempt to impose upon the Presbyterian church five new tests of orthodoxy."

"The third mistake which is being made is the attempt to impose on the Presbyterian church a pledge of total abstinence from wine," said Dr. Vandyk.

"Understand this has nothing to do with the question of prohibition," continued Dr. Vandyk. "That is a matter of national policy to be finally settled on grounds of prudence, economy, social welfare and the best interests of the republic."

"But to say that the use of wine is 'per se' sinful is to tell a lie and contradict the Bible. Else why did St. Paul write to Timothy: 'Be no longer a drinker of water, but use a little wine for thy stomach's sake?'" Else why could Christ not only use wine but make it?

"For a state to say 'The saloon must go' is doubtless wise, certainly lawful. To add, 'There must be no more wine,' is also lawful, but its wisdom can only be tested by experience. But for a Christian church to impose a pledge which would have excluded Jesus Christ from its ministry and membership is manifestly as absurd as to banish on the blasphemous."

"Any man who chooses for good reasons to adopt total abstinence as a rule of his life may do so with wisdom and propriety. But I would never debase myself to sign such a pledge if it were forced upon me by a church bearing the name of Christ while condemning his conduct."

DEATH OF MRS. W. G. ASKEY

The death of Mrs. W. G. Askey occurred at her home in town on Thursday, June 7th, at 9 a.m., after a lingering illness. For some weeks the passing has been expected, and although not shocked by the call of one so highly esteemed from their midst, the entire community deeply grieve at the parting.

Mrs. Askey has been a woman of high ideals and standard, a staunch friend to so many that her illness and death has been particularly felt by a host of friends, many of whom have assisted and been with her as she passed through the Valley of the Shadows.

Mrs. Askey was born in Middlesex, England, on January 11th, 1865. She came to Canada about thirty-four years ago and has resided in Pincher Creek for the last twenty-five years.

Her first husband, Mr. Charles Murdoch, predeceased her by twenty-five years, they having resided in Maelod. To this marriage a son and daughter were born, both of whom are married, the son, Mr. Charles Murdoch, in Maelod, and the daughter, Isabel, Mrs. E. Donkin, of Frank. Mrs. Murdoch later married Mr. W. G. Askey, who also survives her.

Mrs. Askey also leaves to mourn her loss four sisters and six brothers. Her sister, Miss Green, predeceased her several months ago. Mrs. A. J. McKenzie, residing in Pincher Creek and the others are two in North Dakota and one in Maple Creek. The brothers reside one in Minnesota, one in South Africa and four in England. Mrs. Askey was a staunch member of the United Church and of the Rebekah and Eastern Star Lodges. Her loss in these organizations especially will be greatly felt.

Sincere sympathy is extended to the bereaved—Pincher Creek Echo.

Forty-eight million bushels of grain awaited the opening of navigation at Fort William and Port Arthur this spring.

It wasn't an Alberta editor, but a printer's devil who was going through his first experience on "making up" forms. The paper was late and the boy got the forms mixed. The first of the obituary notice of an impecunious citizen had been dumped in the forms, and the next handful of type came off a galley describing a recent fire. It read like this: "The pall bearers lowered the body to the grave and as it was consigned to the flames there were few, if any, regrets, for the old wreck that has been an eyesore to the town for years. Of course there was individual loss, but that was fully covered by insurance." The widow thinks the editor wrote the obituary notice that way because the lamented printer of her joys and sorrows owed him five years' subscription.

The Dominion of Canada, or at least the Province of Alberta, is supposed to be possessed of good moral laws. One of them is that which gives the boys and girls of tender years the opportunity of securing first-hand lessons in the art of gambling through the medium of legalized gambling devices, which have been thrown out as prohibitive by practically every State in the union across the border. And it's only a few years ago that the United States was looked upon by moral reformists in Canada as the hotbed of crime. Truly, perhaps, Canada is advancing, but not in the matter of sane law-making.

The East Kootenay Power company state that in order to prevent confusion between their plant and Bull River town, they have named their plant "Aberfeldie," by which name it will be known from now on. "This is named after a similar spot in Scotland which is epitomized by Robert Burns. They are also endeavoring to have the name of the river changed, as it seems bad that one of the most beautiful streams in British Columbia should have such a poor name as "Bull River."

Labor Reductions
On Automobile Repairs

We are now operating our repair shop on the Flat Rate Plan. By this plan the automobile owner knows what the job is going to cost before the work is commenced. The following are a few prices on Chevrolet repairs:

| | |
|--|---------|
| Overhaul Motor | \$32.00 |
| Overhaul Rear Axle and Propeller Shaft | \$25.00 |
| Overhaul Transmission and Universal | \$25.00 |
| Grind Valves and Clean Carbon | \$5.00 |
| Rebuild Steering Knuckles and Plain Arms | \$45.00 |
| Rebuild and Adjust Brakes (per set) | \$30.00 |
| Tighten Main and Connecting Rod Bearings | \$7.50 |
| Clean Carburetor | \$1.00 |
| Retime Ignition | 75c |

HERE AND THERE

Smoking compartments are to be provided in the new wooden passenger coaches for use on the Vancouver-Seattle-Burnaby air route.

301,950,267 feet of lumber were produced from mills in the Okanagan Valley last season as against 289,119,764 feet in the 1921-1922 season.

Last season's grain shipments through the port of Montreal exceeded 155,000,000 bushels. Exports reached \$3,450,810 providing a surplus of \$266,962.

Forest rangers of the Quebec and New Brunswick forestry departments will co-operate to the extent of covering fires on either side of the provincial border.

Two thousand maple and one thousand green ash trees, natives of Saskatchewan, have been established there which embrace the prairie provinces and is the only one west of Montreal.

During the year 1922 boring operations for the discovery of oil and gas in Alberta have cost the extent of 230,000 feet, resulting in the discovery and development of a field with an output of 180,000,000 feet per day.

Despite reports of adverse conditions in the prairie provinces, Saskatchewan officials estimate that after paying all expenses the farmers of that province last year had \$100,000,000 in net proceeds to apply on debts.

In 1906, in Iowa, a single head of oats was selected as a desirable variety. In thirteen years this single head had multiplied to the extent that 1,000,000 bushels were sown to it and it showed an increased production of 6,500,000 bushels.

One of the largest timber sales that the Canadian Pacific Railway has made in several months has just been made on Vancouver Island. A group of Seattle lumbermen have acquired 12,000 acres of timber land at Horne Hill. The timber on this stand exceeds 900,000,000 feet.

Part of the plans for keeping the St. Lawrence open all winter submitted by D. J. Connelley, Roman-Canadian engineer, to the Federal and Provincial Governments would call for the erection of a nine mile dam at the east end of Belle Isle strait, which would prevent the cold currents from the north entering the river.

The Bungalow Camps to be opened this year by the Canadian Pacific Railway in the French River, Nipigon and Lake of the Woods districts of Ontario will consist of a community house, containing a dining room with stone fireplace, surrounded by several double and single bungalows comfortably furnished for the accommodation of from one to four persons. A number of canvas houses will also be used.

The official opening of the Banff-Windermere Highway will take place on June 30th at Kootenay crossing, B.C. Motorists from all over Alberta, British Columbia and the Western States will be present in large numbers. A lunch will be provided for several thousand people at Kootenay Crossing. Prominent representatives will be present from the Canadian and United States Governments and from provincial and state governments on both sides of the line. The official opening will be marked by the cutting of a red white and blue streamer, stretched across the roadway.

A verdict of "Not Guilty" has been returned by the jury in the liquor theft charge preferred against E. G. Harvey and Thomas McCran, at Lethbridge.

HARVEY BOUTILLIER GETS EIGHTEEN MONTHS

Charged before Magistrate Gresham with cattle rustling, Harvey Boutillier, of Lundbreck, was found guilty and sentenced to serve a term of eighteen months in jail.

MAIN LINE TRAINS PASSING THROUGH CROW

Owing to a rather serious slide and washout on the main line near Field, all main line trains are now routed through the Crow. The first section of the Trans-Canada, east, passed through at an early hour this morning and several trains east and west have gone through since.

BAD ADVERTISING

"Price, f.o.b. factory, \$2,500. Price in Canada (delivered, taxes) \$3,500." This is the kind of copy that staggers the buyer of an automobile in Canada. He is asked to support home industry; he is told that the automobile he buys is "built in Canada," and yet the same make of automobile costs him over 50 per cent more than the factory price in the United States. Who gets the difference?

Dr. Amerson, M.P., for Halton, brought up the subject in the house of commons the other evening. He is a Conservative and a protectionist, yet he felt, he said, that the spread on automobiles was too great, and he expressed regret that the government had not reduced the duty on automobiles. At present there is a duty on motor cars of nominally 25 per cent, but there is also a sales tax, and between the customs duty and the sales tax and conditions of the business which are rather mysterious to outsiders, the net effect in Canada is that motor cars cost in excess of 50 per cent more here than they do in the States—and this, as he said is a heap more than is reasonable.

This is the glaring kind of contrast that advertises to everybody that the United States is a more desirable place to live in than Canada. We cannot afford that kind of advertising.

—Montreal Herald.

Fred Spalding arrived in town last evening after driving over 2000 miles. He says that everywhere he went he found great interest being taken in the Banff Windermere Road and he believes that the estimate of the numbers who will go over it this year will be away low of the number who do so. He says that the Sportsmen and Tourists' Fair at Spokane was a great success, being visited by about 130,000 people during the six days it was open. His booth of pictures of the B-W Road and the Crow's Nest Pass carried a great deal of attention and during the entire time he was answering enquiries about motoring to these parts. —Ferne Free Press.

A dollar now buys 100,000 German marks.

ITALIAN RUNS AMUCK

An Italian bearing the name of Dominick de Julia ran amuck at Coleman on Saturday evening last, when he ventured to make use of a knife to fight a young man named Clark. Clark is said to have been in the act of stealing a keg of beer when noticed by Dominick, the owner, who made chase. Catching Clark he displayed a hook-knife with which he made several wild slashes, leaving his victim lying in blood, fearfully lacerated. The police were called, but the assailant had disappeared and so far no trace has been found of him. De Julia is quite an old timer in this district.

IF WE CAN SMILE

Life is a tangle, life is a cure, life is much worry and often despair. But there is pleasure music and light; there is a morning after each night. Life is a mixture of joy and pain, plenty of sunshine, plenty of rain. But this same mixture makes us worth while, if through the shadows we only can smile.

BORROWED JAWBONES

Eugene Criqui, new featherweight champion of the world, is said to have a reconstructed chin made of the jawbone of a sheep. Its advantage in his possession is the fact that it contains no live nerve centres and so "knockouts" are minimized.

M. Criqui is probably not unique with his borrowed jawbone. Indeed circumstances would lead one to believe that the borrowing of jawbones is quite a common occurrence among certain types.

Only in the case of people with freak ideas like W. J. Bryan, for instance, it is probably that bit of skeleton known biblically as the "Jawbone of an ass." —Vancouver Sun.

Mrs. C. J. Bundy, of Cowley, was a visitor here last evening.

The market price of last week's Coleman Journal was fifteen cents. Latest reports state that the price dropped ten cents this week and is again at normal.

A passing tourist party took a look at our flooded campsite. Seeing no chance for anything else but a swim they kindly left a can of soap for the next party's convenience.

Rev. J. L. Stacey, Roman Catholic priest at Hanna, has been committed to stand trial in the next court of competent jurisdiction, to answer the charge of assault, preferred by a Pole named Prochaska.

A teacher asked if any child in her room could tell what the word "limit" meant. One little maid answered: "Please, miss, it is the name of a popular resort three miles off the coast from New York."

THE PASS FIFTEEN YEARS AGO

(Frank Paper, 1908.)
October 29—The steel from McMan's mill at the Coburn camp, on the north fork of the Flathead River, East Kootenay, is now completely laid and the first passengers went over the line on Saturday. The line is fourteen miles in length and extends only to the camp buildings, and a further mile will bring the tracks to the mouth of the workings.

R. R. Jamieson, formerly general superintendent of the C. P. R. in the west, and very well known in Frank has come out as a candidate for mayor of Calgary.

Corporal F. Askey, of the Mounted Police, has retired. He enters into partnership with W. W. Hanford, of Lethbridge, in the photographic business.

R. W. Wood, of the Trites-Wood Co., of Fernie, visited Frank this week. Mr. Wood states that the rebuilding of Fernie is so far progressed that the people and the business interests will be safely housed before winter sets in.

It is reported that a deal is pending, whereby the Blairmore operation will be turned into a store building to be occupied by the Blairmore Grocery Company. In the event of the deal being completed, Capt. Beebe will build a new theatre, much larger and better than the old house.

The heaviest wind Frank has ever known was experienced Sunday and Monday last. All the glass in the "41" Market was blown in, also that of the Cobley store. The sidewalk leading from Dominion Avenue (the station) was blown away, nearly half the roof of the coal company's tippie was blown off and numerous other instances of damage.

The official count of the ballots cast in the recent election shows the following: Total of 6229 votes cast. Herron received 2935, McDonald 2632, and Harrington 662, giving Herron majority over McDonald of 303. The Socialist candidate, Harrington, lost his deposit.

Henry Gibeau and family moved in from the ranch the first of the week and will reside in the Fitzsimmons house. Mr. Gibeau will again be in the employ of the coal company.

Corporal P. Deykin arrived from Macleod on Tuesday, to take charge of the local detachment of the R. N. W. M. P., as successor to Corporal Askey.

L. W. Krebs went to Macleod on Wednesday as a witness in the trial of one Thompson, charged with robbing the Crow's Nest Flour & Feed store at Blairmore some time ago.

George Jackson was brought in from South Fork this morning, suffering from a badly wrenched leg received while hauling lumber. In going down a hill, his chain broke and the team could not hold the wagon back. Mr. Jackson, in jumping, had his leg caught between a stump and a wheel.

The San Francisco Opera Company which played at Coleman on Tuesday evening was easily the best company that has ever appeared in The Pass. The opera, "The Toy Maker," is an immensely amusing creation. The coming of the opera afforded the editor of this paper the pleasure of renewing an acquaintance of many years standing with Eugene Weiner, the leading tenor, who has sung himself into prominence in the light opera world in the last decade.

Reports of a rich gold strike near Sedwick, on the Wataskivian branch of the C. P. R., were received here today. The gold was discovered by George Peterson, an old Yukon prospector. He says it is a glacial deposit. Samples of the gold gravel sent to Montreal assayed \$2 per cubic yard, and some sent to Spokane yielded \$30 per ton.

The arbitration board of the mine operators and mine workers held its regular meeting here on Tuesday,

A PEACEFUL PROVINCE

We must show no mercy to anything which looks like Bolshevism. The law now authorizes deportation and we must use this authority with ruthless energy. Good old Quebec has remained till now outside the social disturbances of other countries and provinces. It has been called America's Street of Good Conduct—and rightly. We are going to preserve that reputation by keeping strict watch over our working population. They, moreover, understand that, in conformity with the teachings of common sense and religion, true liberty consists in respecting the rights of ownership and in only demanding what is justly due. It is in preserving this spirit that we will achieve national greatness. —Quebec Le Soleil.

The right of free speech is contingent upon your possession of the decency to keep your mouth shut.

Mrs. Emmeline Pankhurst will address a meeting at Lethbridge on Monday evening, under the auspices of the National Council of Women.

Dr. Williams, of the University of British Columbia, will make extensive geological surveys in Southern Alberta oil fields this summer.

Mrs. Metzler returned from Lethbridge on Wednesday morning, accompanied by her daughter, who had been a patient in hospital for a few weeks.

Rev. Edward Cragg, aged 94 years, one of the oldest living ministers in Canada, preached the anniversary sermon at Wesley Methodist church, Calgary, on Sunday last.

C. W. Chesterton, district superintendent of the Bank of Montreal, Regina, has been appointed to succeed A. M. Peters at Calgary. Mr. Chesterton in turn will be succeeded by J. W. Speers, of Montreal. Mr. Peters goes to St. John, New Brunswick.

During the first two months, when all sales of liquor in Edmonton and Calgary were limited to the government vendor's store, the sales in Edmonton were nearly five times as great as in Calgary. In Edmonton the sales were, in April 1920, \$39,069; in May, \$19,845—a total of \$58,914. In Calgary the sales were, in April 1920, \$3,529; in May, \$4,558—a total of \$8,087. The authorities do not believe there is this difference in the volume of liquor consumed. Of course, the Alberta house was in session in Edmonton during that period.

Announcement is made that hereafter all British vessels bound to United States ports will carry just sufficient alcoholic beverage to serve them to the three-mile limit. Now the British authorities are required to take an X-Ray picture of the capacity of a man before sailing and the ship owners then gather some idea of just how much will be required. We would advise some of the big trans-Atlantic companies to do a little advertising up here in the interior. There are lots of "tanks" around here that would be glad of the chance to experiment on a trip for scientific purposes.

Four and twenty Yankee maids, Feeling mighty dry—
"Oh, you good old Canada,
Send us o'er some rye!"
When the rye was opened
The girls began to sing:
"Down to — with Volstead
And 'God Save The King'."

with J. D. Hurd, general manager, and C. Simister general superintendent of the Crow's Nest Pass Coal Company and O. E. S. Whiteside, general manager of the International Coal & Coke Company, representing the operators and F. H. Sherman, district president, and J. A. McDonald, district secretary, and William Graham, board member, representing the mine workers.

THREATEN TO BLOCK UNION

Before the debate on church-union opened at Port Arthur on Thursday last, the Rev. R. G. MacBeth, of Vancouver, placed in the hands of the moderator a caveat signed by sixteen commissioners, to the effect that if the union committee report was adopted those signing the caveat declared, their non-concurrence. And, further, that they would remain in the assembly during the debate, but would not thereby give any form of approval to ultimate proceedings and would not be bound by the vote of the assembly if it was against them.

The Crow's Nest Baseball schedule had to be rearranged and will appear in our next issue.

Blairmore baseball team played the Washington all-stars at Coleman last week and lost by ten runs to nothing.

The chief weakness of government is that man is never so carefree as when spending other people's money.

The town council will sit as a court of revision at the town office on Thursday of next week.

The Church of Brethren in holding their annual convention in Calgary this week with upwards of two thousand delegates in attendance.

A certain town not a thousand miles from here has a mania this year for importing athletes, quite contrary to all rules of amateur sport.

The board of trustees of the Blairmore public school sat as a court of revision last week end. There were eleven appeals disposed of. We understand that in connection with one only will an appeal be made to the judge of the district court.

The Monteviel Herald calls attention to the peculiar features of the law in Ontario as it concerns liquor. To be caught with a bottle of liquor calls for a minimum penalty of \$200 under Section 41; drinking from a bottle in the street has a minimum penalty of \$100, while being intoxicated only calls for a penalty of ten bucks. Evidently the framers of the law gave consideration to the ability to pay rather than bonusing intoxication, for obviously a man with a bottle on his hip has greater assets than one with a bottle in his stomach.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 20th of July, 1923, for the conveyance of His Majesty's Mail, on a proposed Contract for four years, twelve times per week on the route PASSBURG and CATCHI POST (Passburg Pacific), from the 1st of October next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office at Passburg and at the office of the Post Office Inspector.

POST OFFICE INSPECTOR'S OFFICE, CALGARY, June 9, 1923.
D. A. BRUCE,
Post Office Inspector.

One of our exchanges suggests that every magistrate before taking office should be required to serve a fortnight in a prison in a district where he was not known. The idea is that the magistrate should have some knowledge of what he means when he sentences a prisoner to a term in jail. What a sentence may mean will depend, of course, partly on the institution and partly on the person sentenced. To some it may mean little, for others it may be something terrible. It would be difficult for the magistrate even after he had served a fortnight in jail, to take into consideration all the factors of the problem in forming his judgment. It is a very difficult problem. To send a man to jail may be to help him become completely demoralized. To fine him may be to take money from those who are in need and depending on him. One attempt at a solution of the problem would be to appoint only those who could be trusted to use good judgment and give them scope for the exercise of discretion.

Alone From Uscilug to Milwaukee Via Canada

Eleven-year-old Polish Boy

Makes Long Voyage Alone.

TRAVELLING does not tire or trouble this little fellow. Though he does not speak any English other than two or three words which he picked up en-route, he travelled alone from his home at Uscilug on the Russian-Austrian boundary to Milwaukee, having only with a small railway ticket and a sheet of immigration documents. Keith here is his name. Orphaned by his mother's death three years ago, he was going to his father in Milwaukee, who had made arrangements for his transportation.

When Keith arrived at Warsaw he was conducted on a train of the Canadian Pacific Railway to Antwerp.

Selling Eggs By Color Of Shells

Uniformity of Color in Same Package Is of Most Importance

(By Seth W. Shoemaker, Director, School of Agriculture, International Correspondence Schools, Scranton, Pa.)

Every little white the time honored discussion that the quality of an egg may be told to a certain extent by the color of the shell, is revived. So far as the intrinsic value of the egg is concerned there is no real basis for such a belief but so far as market conditions are concerned there is sometimes a cash value to support such an idea.

Almost every poultryman knows, for example, that New York City will pay a higher price for white shelled eggs while the Boston market will pay a higher price for brown shelled eggs and that frequently there is a difference of two cents a dozen in favor of the color preferred in the various markets. In other markets the matter of the color of the shell is usually of small importance and in the mar-

DOES THE COLOR OF THE SHELL

kets of our smaller cities, towns and villages the people sensibly seem to place more value on the freshness and cleanliness than they do on the color of the shell.

Crate Eggs by Color

One important rule in packing eggs for market, however, is to keep the color of the egg shells in the package uniform so that the eggs will not look like a mixed lot. White eggs will usually sell better if placed in a crate by themselves, and likewise brown eggs will do the same. Some poultrymen, especially those supplying a fancy trade, deem it advisable to crate eggs of various shades, indicating so that all the eggs in the package will look very much alike.

Fowls of European origin lay white shelled eggs and those of Asiatic origin, as a rule, lay darker shelled eggs. Eggs of different varieties of the same breed may vary slightly in color. For example, the eggs of dark plumaged fowls usually have darker colored shells. A cross between two breeds, one of which lays brown shelled eggs and the other white shelled eggs, usually results in fowls that lay eggs of a color intermediate of the brown and white.

There is also a noticeable variation in the color of eggs from different hens of the same variety. The color of eggs laid first than those laid later in the season.

Dark Eggs From Asiatics
The more Asiatic blood a fowl has in its veins the darker will be the color of the egg shell. The eggs with the darkest colored shell are laid by Langshans. The color of the shell produced by the most popular egg producers is given in the list following:

| White Shells | Brown Shells |
|--------------------------|---------------|
| Andalusians | Brabams |
| Crevecoeurs | Cochins |
| Gammas (some are tinted) | Dominiques |
| Hamburges | Faverolles |
| Houdans | Indians |
| Leghorns | Javas |
| La Fleche | Langshans |
| Minorcas | Orpingtons |
| Polish | Plymouth Rock |
| Redcaps | Wyandottes |

Many poultry breeders looking at a specialty of eggs believe that one of the most desirable points is to keep hens producing eggs of uniform color. Hence, the color of the egg they most desire they try to keep as pure as possible. For example, as soon as a Rhode Island Red or a Plymouth Rock or any other pure-bred fowl are crossed with any other fowls they usually produce off color eggs.

Sometimes, even a pure-bred fowl will begin to show some reveries to an old ancestor and lay eggs that are not true to the color of her variety. Careful poultrymen usually eliminate such hens from the breeding flock because if they are used in breeding the fault will be probably perpetuated. Although the color of the egg is considered to be more or less of a fancy by most people, most poultrymen will usually agree that it does to have a uniform color, and this should be considered by the breeder who wants to get the most money for his product.

You may be sure of one thing—that you can't be too sure of anything.

W. N. U. 1475

The Heart's Marvel

Transmouge Work Accomplished by the Heart During the Average Lifetime

The heart of one man in a lifetime pumps as much blood through the body as the blood weight of the ten million men killed during the war, according to Dr. J. Utesch, a professor in the Berlin Medical School, as a summary on blood circulation, and the first man to perfect a system for measuring the blood content of the human body. "The heart of a man weighing 133 pounds and living sixty years," he says, "pumps during the course of his life 161,500,000 quarts of blood. The world war cost ten million lives. Estimating the average weight of a man's body at 133 pounds, and the weight of the blood content at 5 per cent, of the total, some 21,400,000 quarts of blood were shed during the war." Prof. Utesch used this illustration to show how much more powerful is the marvel of nature than the destruction which mankind, with the most ingenious instruments of warfare, was able to inflict upon itself in five years of desperate effort.

Arab Independence

King of the Hedjaz Signs Treaty With Great Britain

King Hussein of Hedjaz has signed the treaty between his Government and Great Britain. The Government recognizes Arab independence and regards Palestine as within the Arab zone, but it does not modify the present form of Government for the Holy Land.

The treaty provides for perpetual peace between the contracting parties and for settlement of frontier questions by friendly negotiations. "It deals," among other things, in detailed fashion, with the status of foreigners and pilgrims and provides special arrangements for travel to Mecca.

Both signatories undertake not to enter into any agreement "with a third party antagonistic to the interests of the two governments concerned."

Marriage Register Of Westminster Abbey

Contains Names of Humble People As Well As Famous Ones

The marriage register of the Abbey at Westminster—where the Duke of York and his bride signed on their wedding day—is a record of curious and unexpected contrasts. It contains, of course, many names of the famous and the great, but has almost equally numerous signatures of those of humbler sort. This is due largely to the fact that not only members of the body collected but their servants can claim the right to an abbeey wedding. As the privilege of an abbeey ceremony is not one that is too readily accorded, it may easily arise that a peer fails to secure it, while the handmaiden of one of the collegiate regent and her bridesmaids find no difficulty in arranging their nuptials in the central church of the Empire.

Spectacular Motor Route

New Chapter Added to Romance of Modern Engineering

The building of the new motor highway through the Canadian Rockies and the linking up of the 6,000 miles system known as the "Grand Circle Tour," add one more thrilling chapter to the romance of modern engineering. The Banff-Windermere road is not only the first motor road across the Central Rockies, but the connecting link in what is probably the most spectacular motor route in the world. For the past two years motorists in both the United States and Canada have awaited the completion of this final arc.

Maidstone Has Jail School

Teachers Give Voluntary Service For Education of Prisoners

Education on a large scale is being organized for the prisoners in the jail at Maidstone, England.

Classes in French, shorthand and bookkeeping have already been started by the director of education for the county at the request of the prison commissioners. There are 18 prisoners in the French class. It is in shorthand and seven in the bookkeeping class. Additional classes in engineering and Spanish are being formed, the teachers giving their services voluntarily.

The Ocean Rivers

The oceans have their rivers just like the land. The best known of these is the Gulf Stream, but the greatest is the "Kuro-Siwo," or the Black Stream, which runs from Japan due east toward the American coast, and so wonderfully modifies the climate that in summer humming birds are found in Southern Alaska.

How to Prepare Soil for Lawns

Sand and Humus Added to the Soil is of Great Benefit

A deep leamy soil is easily made suitable for sowing a lawn, since it already possesses a good texture. If lacking in fertility it can be enriched by the addition of barnyard manure or, if this is not available, an application of 20 pounds of bone meal for an area of a thousand square feet may be substituted. In either case the material should be well incorporated with the soil.

Stiff clay soils require both sand and vegetable matter before they are really suitable for the production of a good turf. There is little danger of using too much of either of these materials. A quantity of sand equivalent to a surface layer of one inch in depth, if worked into the clay, produces a permanent improvement in its texture. Even a smaller quantity is helpful, while much more can be used advantageously. On the average sized lawn it is entirely feasible to use sand for the purpose of improving stiff clay soils. It is also both practicable and desirable to use clay for improving light sandy soils.

Decayed vegetable matter, or humus, as it is called, lightens the texture of clay soils, increases their water-holding capacity, and improves their drainage; it also improves sandy soils by making them more cohesive and more retentive of moisture. Thoroughly rotted barnyard manure of good compost are both suitable forms of humus for the lawn. This should be thoroughly mixed with the soil. Organic matter can be supplied to the soil intended for a lawn much more successfully and usually more cheaply in the form of manure or compost than by means of green crops turned under.

Fuel From Waste Paper

Microbe Discovered Which Will Turn One Ton of Paper Into Fifty Gallons of Alcohol

This fuel is not utilized by putting a match to the paper, but by the action of a microbe which will turn one ton of waste paper into fifty gallons of alcohol suitable for motor fuel. Two English chemists are said to have discovered this microbe, which, say its captors, is a rod-shaped bacillus which can develop so much heat in its growth that other germs, which might interfere with the alcoholic fermentation, are automatically killed. Apart from yielding the motor alcohol, the chemists say, this germ is capable of developing some 15,000 cubic feet of gas, suitable for internal combustion engines, from one ton of waste paper. It is to be hoped that these chemists will let the rest of the world know how to breed and use this useful little creature.

Wants to Purchase Queen's Doll's House

Twenty Thousand Pounds Is Offer Received From American

An enterprising American is said to have offered £20,000 for the wonderful doll's house designed by Sir Edwin Lutyens for the Queen, to be exhibited by her for the benefit of the hospitals. The doll's house contains all sorts of marvelous things in miniature, pictures by famous artists, beautiful painted little books by eminent authors, reproductions of historic pieces of old furniture, etc. It is felt that as a work of art this remarkable little structure with its contents should remain in England.

A crude form of tax-meter was used as far back as 1675.

Are Using More Dairy Products

Economic Value of Dairy Foods Has Been Proven

The educational work being carried on by the Dominion Dairy and Cold Storage Branch is progressing apace, and there is the best of reasons to believe it is having its effect in an increased domestic consumption of dairy products. The consumption of cheese, butter, and especially milk is greater per capita in Canada today than it has ever been before, that is, at least, since there has been opportunity to obtain the facts.

Miss Helen O. Campbell, demonstrator and lecturer of the branch, who has recently been engaged in enlisting the services of women's institutes, school teachers and welfare workers generally, in the campaign of education in the value to health and economy of dairy products, points out that beyond their commercial importance, as the dairy industry almost more than any other makes use of the roughage that would otherwise be wasted and converts it into valuable commodities. Its greatest importance lies, however, in the food thus made available for human consumption. During the winter Miss Campbell was engaged in delivering lectures on the food value of milk at a number of centres. One point where addresses were given, the city council offered prizes for essays and posters by the school children, and the work done was surprisingly good.

Common Superstition

About Two-Dollar Bill Origin of Belief of Evil Influence Not Known

Do you know that there is a common superstition that a two-dollar bill is "unlucky"? Gamblers do not like to take one or to include one in a bet, and a good many persons who find themselves in their possession meditate in the belief that they can in that way dispel the evil influence that the bills exert—a strange fancy, the origin of which we cannot learn. This is by way of introducing the report that the treasury officers are talking of doing away with the two-dollar bill, not because of the superstitions connected with it but because they think it an unnecessary piece of money. The two-dollar bill may follow the two-cent piece into oblivion and for said "Chewing gum," Youth's Companion.

Will They Disappear?

Will Canada be able to get along without the Chinese laundry and the Chinese restaurant? Apparently Canada will have to learn to do so. Under the new regulations, Chinese merchants and students are to be admitted, and it is not likely that either will be allowed to take in washing or serve meals.—Stratford Beacon-Herald.

Anything But That

A timid country miss was taking her first railroad journey alone. When the conductor came to her and said: "Tickets, please," she fished in her bag with awe-struck embarrassment. Soon after the train boy entered her car and said: "Chewing gum," with a sigh she said: "Oh, goodness! do I have to take that up, too?"

An engineer declares that 50,000 people now do the work, with the aid of machinery, which needed 16,000,000 persons to do a generation or so ago.

Mining Coal Under Ocean

Nova Scotia Has Largest Undersea Working in World

Engineers in time will be able to take coal and iron ore from under the sea at distances of five miles or more from shore, according to E. W. Gray, an executive of the British Empire Steel Corporation. Working already extend two and a quarter miles to sea at Sydney mines, and 70 per cent. of the coal produced in Nova Scotia comes from beneath the ocean. The cost of bringing deposits to the surface rather than failure of the seams, will place a limit on submarine mining operations, Mr. Gray thinks.

Although coal is being taken from under the sea at several points in Great Britain, Australia, Japan and China, the Nova Scotia coal seam and the iron mines at Wabana, Newfoundland, are the scenes of the largest undersea mining workings in the world. According to Mr. Gray, they are capable of indefinite expansion, some of the Wabana seams being 32 feet thick.

Inundation is the greatest danger added to the usual hazards of land operations. Engineering skill, however, has reduced the number of these accidents, the chief of which occurred at the Tachibana colliery in Japan, where many lives were lost, and on the Cumberland coast in England in 1834, where 36 men were drowned.

The Earliest Maps

Fairly Good Ones Made By Savages In Olden Times

Mapmaking goes back to the earliest known time. It was a branch of the early picture writing practiced by savages. In Tahiti, for instance, the natives were able to make fairly good maps for the guidance of explorers. Maps with colored lines were in use in Peru before the Conquest.

The oldest known map is that of the Ethiopian gold mines, dating from the time of Sesostris I., the father of Ramesses II., long before the time of Aristotle and his bronze tablet, on which were inscribed the circuit of the earth and all the seas and rivers then known.

A Welcome Sound

A missionary who had been captured by cannibals, stripped naked, and sentenced to die, was lucky enough to make his escape.

He reached through the jungle, and towards morning blundered into a native village. He crouched in the darkness beside the wall of a native hut, almost afraid to breathe. Presently from within the hut came the sound of a voice:

"Hell and fury! You damned idiot! You ought to have doubled whist!"

"Thank God," cried the missionary with a sigh, "I'm again among Christians."—Reynold's Weekly.

Babies and Civilization

The population of Egypt is supposed to have remained stationary during the last three or four thousand years, despite a large birth rate. Modern census-takers have explained the failure of the population to grow by the fact that three out of every four babies born are soon killed by unfavorable conditions. This prodigious waste of human life seems to the dirty and poverty-stricken Egyptians to be the will of Allah.—New York Globe.

The Battle of Gettysburg was the greatest battle of the civil war, the killed, wounded and missing, totalled 23,000.

Maternity Benefits

Protection for Women Engaged in Industry Is Necessary

A comparative study of maternal mortality rates in various countries on both sides of the Atlantic resulted in the recent discovery that our Canadian rate of maternal mortality is abnormally high. There was so fewer than eighteen nations whose rates were lower than ours, and in the majority of these cases the rate is very much lower than ours.

"Why is Canada's rate so high?" people have frequently asked. There are many different answers to the question. Some point out the fact that many of our women live in remote districts where it is very difficult to secure medical or nursing service. Others lay a great deal of the blame on uneducated midwives who are often ignorant of fundamental laws of hygiene. Still others assert that the mortality rate among mothers would be lowered if more emphasis were to be placed on the study of obstetrics and gynaecology in our medical colleges, and if our nurses in training were to be given longer experience in maternal nursing than is at present the case.

There is considerable force in these and similar statements. But before arriving at any general conclusion on the subject some study should be given to the statistics adopted by those countries where the maternal mortality rate is lower than in Canada.

It is interesting to note that in no fewer than seventeen countries of Europe legislation has been enacted at some time in the past. In many years providing maternity benefits for necessitous women. Another significant fact is this, that in no case has any country of Europe repealed legislation of this sort once it has been enacted, and wherever a change has been made in the original statute it has been for the purpose of extending its scope.

The advantages of schemes for maternity protection and benefit have become so apparent that the International Labor Conference two years ago devoted special attention to the subject and a Draft Convention was adopted for the purpose of guaranteeing protection to all women engaged in commercial and industrial undertakings. In the following year the International Labor Conference recommended that similar protection be given to women engaged in agricultural pursuits as well. What they arrived at as the minimum protection any nation should offer to such women was the following:

(a) Prohibition of employment for the six weeks following childbirth.
(b) The right to leave work on production of a medical certificate stating that confinement will take place within the following period.
(c) The right to benefit sufficient for the full and healthy maintenance of herself and the child during these two periods, such benefit to be provided out of public funds or by a system of insurance.
(d) Free attendance by a doctor or certified midwife.
(e) The right to a period of half an hour twice a day during working hours for the purpose of nursing her child.

Canada was a party to the Draft Convention on the Protection of Women in Industry, but as yet only one province, British Columbia, has enacted legislation even partially covering the points given above. It is a matter for speculation as to when the other provincial legislatures will realize the need for conservation of life in some way as that outlined by the Draft Convention.

Honey In Saskatchewan

Estimated Production for 1922 Approximately Twelve Tons

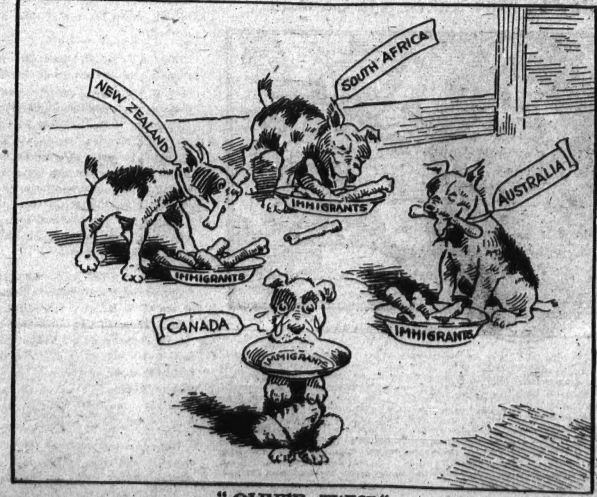

A substantial increase in the production of honey in Saskatchewan is anticipated this year, according to officials of the markets and co-operation branch of the Provincial Department of Agriculture.

At present there are nearly 100 beekeepers in Saskatchewan. Fourteen of them produce a total of 9,622 pounds of honey last year, at an average yield of 683 pounds per each apiary. The remaining apiaries yielded an average of about 200 pounds each, and it is estimated the 1922 production of honey in Saskatchewan was approximately 12 tons. One Wynyard apiarist produced about a ton.

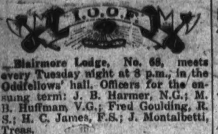

To Aid Shipping

The proposed wireless direction finding station on the west coast of Vancouver Island, for the benefit of shipping, will shortly be established by the Federal Government. The very latest type of direction finding apparatus is planned and the aerial system will be known as the Aperiodic aerial system.

The debris left from coral made into jewelry and ornaments is crushed, scented and sold as a tooth powder at a high price by the Italian perfumers.

"OLIVER TWIST"

Blairmore Lodge, No. 66, meets every Tuesday night at 8 p.m. in the Oddfellows' hall. Officers for the ensuing term: J. B. Harmer, N.G.; M. H. Hoffman, V.G.; Fred Gauding, R.; R. C. James, F.S.; J. Montalbetti, Treas.

Crows' Nest Encampment No. 8, meets on the second and fourth Wednesdays of the month in the I.O.O.F. hall at 8 p.m. Officers for ensuing term: W. Patterson, C.P.; James Crowder, S.W.; R. Oliver, R.S. and F.S.; Jos. Montalbetti, Treas.

Crowley Rebekah Lodge, No. 66, meets the first and third Thursdays of the month at 8 p.m. Officers: Sister Archer, N.G.; Sister Evans, V.G.; Sister D. James, R.S.; Sister Hood, P.S.; Sister N. Evans, Treasurer.

Bellevue Lodge No. 118, meets every Monday night at 8 p.m. Officers: H. Harrison, N.G.; E. Fisher, V.G.; Jos. Shevels, Sec.; F. Padgett, Treas.

Armistice Encampment No. 17, Bellevue, meets the first and third Wednesdays of the month. Officers: A. B. Carr, C.P.; Stephen Berry, H. P.; Harry Jepson, S.W.; Fred Padgett, J.W.; E. Excellin, treasurer; Charles W. Ray, Scribe, Box 6.

Ray of Hope Rebekah Lodge No. 67, meets the first and third Wednesdays of the month. Officers: Sister Joyden, N.G.; Sister Litherland, V.G.; Sister Beal, R.S.; Sister Christie, F.S.; Sister Pattinson, Treasurer.

Visitors of the Order are cordially invited to attend the above lodges.

PURCHASING POWER

LESS THAN VALUE

A census of the lumber industry in Canada has been completed by the Dominion bureau of statistics, embracing 2,879 operating concerns, of which 52 were in Alberta, 251 in British Columbia, 29 in Manitoba, 365 in New Brunswick, 462 in Nova Scotia, 60 in Ontario, 60 in Prince Edward Island, 1151 in Quebec, and 16 in Saskatchewan.

The total capital invested in the industry, including land, building, and plant, machinery and tools, stocks in process and supplies and working capital, is given as \$129,266,019.

The total number of employees on salaries was given as 2,874 males and 285 females, who received a total of \$3,554,097. The average number of employees on wages was 25,516, engaged in logging operations and 28,820 in the mills, their combined wages amounting to \$28,412,411.

The aggregate value of production in 1917 amounted to \$115,584,705. —Canadian Forestry Magazine.

The Alberta jury act is now thoroughly valid; it is reported by Attorney-General Brownlee, as a result of action he was successful in getting the Ottawa authorities to take when in the east. There has been some question, particularly in the Picardie case, as to the validity of the act passed in 1921, it having been claimed that certain clauses in old Northwest Territories act, which conflicted with the new act, had not been repealed.

To overcome this difficulty the jury that tried Picardie was called in two ways, under both the old and new acts. Mr. Brownlee took the matter up with the minister of justice, and an order-in-council has been passed repealing the clauses in question in the Northwest Territories act, and the Alberta Jury act therefore stands now as the only statute bearing on the calling of juries in this province.

MODERN GOLF

By W. J. Frank Thompson

NOTED CANADIAN GOLFERS

EASE vs. EFFORT

Very few players can associate ease of effort with a long ball. They feel that only a most violent effort will produce a long drive. This is all wrong. Occasionally the beginner is told to hit the ball easily and sometimes he is surprised to find the ball has gone much farther than he intended it to go. If he were wise this experiment would cause him to pause and ponder over the cause of such distance. Invariably he would find it was because he allowed his muscles to remain flexible on the back swing. Doing things comfortably is the keynote of the whole swing. It is what gives results, because the power is being applied properly.

The difference between good and poor players is largely one of flexibility. Usually the beginner stands in front of the ball with every muscle set. This only invites disaster. The moment one has to brace his muscles he is certainly drifting away from the proper method. Comfort should be the check on every type of play.

Must Be Bold

I hope I shall not be understood as advocating a "doling" game. Far from it. One must be bold and courageous if he would win his matches. Hard hitting is to be encouraged. A spared shot is one of the hardest in the game to play accurately. But the added effort should come at the right time. Most players when they wish to drive a long ball grip the club tighter and put the effort in too soon, usually somewhere in the back swing. As soon as the muscles become tense they do not work smoothly, and the reason why so many swings appear jerky is because the player has put on the force too soon which is oftentimes before the back swing is completed.

A good example of this is seen in playing into the wind. More foolish shots take place into the wind than with it and the reason is that the player feels he must make a greater effort. It would be wise counsel to try to hit more accurately. When we put in more effort we usually hit too soon and "hitting too soon" is one of the inherent dangers of the game.

The beginner uses up as much energy and more than the expert, but most of it is dissipated in maintaining balance, whereas the latter gets most of it on the ball.

Muscles Must Be Relaxed

In playing into the wind or in trying for greater distances at any particular hole the player should be sure that the muscles are relaxed. The back swing should be made smoothly and easily, and the effort should not be put into the shot until the down swing is well on its way. Hold back and "take it easy" on the back swing is one of the few tips in golf that is well worth remembering. Hit hard and fast on the down swing for the ball will not go so far unless the swing is fast.

One should guard against straddling in golf, for the reason that it tenses the leg and hip muscles and makes equilibrium harder to maintain. Curiously one has the sensation of greater strength when the legs are wide and tensed, but considering the work required of the leg muscles in the up swing the sensation is a fallacious one, and not to be followed. Sensations are notoriously unreliable. Sometimes pain is felt in the orbital centre which has its origin in some offending molar, or again in amputation cases pain is localized where the foot used to be.

The Arm and The Club

Confusion is continually cropping out in golf. At the present time most golfers try to obtain a straight left arm. We have been taught from time immemorial that the left arm and the club shaft are to be conceived as one continuous part. This is

quite right. Where the error comes in is in consciously straightening the left arm from the start, whereas it is a consequence of the swing. This straightening occurs after the swing has begun, not before. One does not straighten out the arm deliberately; it is straightened out by the club's resistance as the body turns in the swing. In the golf swing the club is the very last thing to start moving. The first movements start at the left ankle, up through the leg and hip muscles which cause the shoulders and body to turn; the hands move last. The inertia of the club must be overcome and the turn of the shoulders and left arm cause a strain at the wrist joint. The hands are dragged, so to speak, for a few inches and then the club head follows. The left arm and club do not get in a straight line until the club has gone some distance. When the club gets going its own momentum causes it quickly to become the leading member.

But as pointed out before, the left arm becoming straight, is only an incidental of the swing. When one consciously makes the left arm straight there is the greatest danger of causing the swing to lose its flexibility and whenever this happens it means a loss of distance.

Flexibility Desired

Rigidity is the negation of power. In playing approach shots or spoon shots where accuracy and not distance is the great factor the swing certainly becomes more compact. But where distance is desired the more flexibility one can get into the swing the better. This is why one who is anxious for better length should be very careful adopting blindly the straight left arm.

The golf swing when effective is performed naturally. When one attempts to consciously build it up or develop it, an element of effort is introduced which invariably destroys the whole thing.

BLAIRMORE GOLF CLUB

The competition for the Green cup, presented to the club by Raoul Green, Esq., was played over the week end and resulted in a tie between L. P. Robert and J. Crowder. The tie will be played off, at a later date. The following is a list of scores:

| | | |
|-----------------|--------|----|
| L. P. Robert | 85—22 | 63 |
| J. Crowder | 91—28 | 63 |
| A. J. Kelly | 88—20 | 68 |
| J. B. Wilson | 78—9 | 69 |
| H. B. Hoar | 107—38 | 69 |
| D. G. Mackenzie | 76—4 | 72 |
| J. H. Farmer | 94—22 | 72 |
| G. A. Passmore | 89—16 | 73 |
| E. Whiteside | 103—28 | 75 |
| W. W. Scott | 97—22 | 75 |
| G. L. Stevens | 90—14 | 76 |
| W. Bird | 98—22 | 76 |
| G. N. Elwin | 105—28 | 77 |

The Presbyterian general assembly on Monday afternoon rejected the amendments of the moderates, counselling delay in the church union proceedings and decisively advised the main motion advising the assembly to proceed forthwith towards union with the Methodist and Congregational churches of Canada. The final vote resulted in 426 for and 129 against church union.

The Enterprise is informed that it is now necessary that all radio sets have licenses. Local owners should see that they obtain theirs at once. They can be obtained at the local detachment of the R. C. M. Police for the sum of one dollar.

The Lundbreck golf course is now in full operation.

WANTED TO BE A FLAPPER. COULDN'T; SO ENDS LIFE

CHICAGO, June 11.—Other girls in her class rolled their stockings, had their hair bobbed and called themselves flappers, and so she wanted to be a flapper too. But her mother was an old-fashioned mother who kindly said "No." So she put a rubber hose in her mouth and turned on the gas.

That is the story behind the suicide of Ruth Horbaker, 14-year-old high school girl of Berwyn. She died today in the home of her father, Albert R. Horbaker, following two days in a comatose condition. Her parents found her Friday night with a gas hose in her mouth and unconscious.

"I can assign no reason for her act," her father told Coroner Wolf, "except that she wanted to have her hair cut. It was just this last week

when she came home and told her mother that there was only one other girl in her class besides herself who did not have her hair bobbed.

"She wanted to have her hair bobbed also, but her mother does not like bobbed hair and told her she would not want to have her do it.

"She did not appear to be depressed about it overnight and we had no thought that she had suicide in her mind. She was unable at any time after we found her to tell us anything, and she left no notes of any kind."

Gordon Steeves, of Calgary, was a visitor in Blairmore on Tuesday, in company with C. F. Sedgewick, of Lundbreck. Gordon has been spending a few days at Lundbreck with his aunt and cousins Mrs. Maude and Clifford and Pearl. He hopes soon to quit the old cow town and make his home in this live metropolis.

Compromise Necessary In Working Out Plans For Armament Reduction

Geneva.—The temporary armament committee of the League of Nations finished its discussion, without coming to a vote on Lord Robert Cecil's plan for disarmament and a guarantee pact among the powers.

It was decided to take up the question later, meanwhile asking the opinion of the League's permanent military commission in regard to the French counter-project presented by Col. Requin.

Lord Robert's project, in the opinion of many of the leading delegates, could not be accepted, and a compromise will be necessary in which some of the features of both his plan and that of the French will be incorporated. The principal difference between the two projects is that Lord Robert demands a complete general pact of guarantees, while Col. Requin proposes arrangements by two or more countries, as more likely to result in immediate action in the case of attack.

One of the greatest blows to Cecil's project is the announcement by several of the smaller members of the league, that they cannot undertake such arrangements. One of these is Switzerland. The League's permanent military commission is also against the Britisher's plan which it has declared impracticable.

The substitute suggested is a partial agreement, involving a smaller number of the states providing for immediate mutual aid in the case of menace. The compromise plan being discussed would unite these local agreements with the general understanding and institute provisions for reduction of armaments.

Russians Sentenced to Death

Crowd clamors for immediate execution of Man and Wife

Moscow.—Vasil Comarov, convicted of the murder of 33 persons, and his wife, as his accomplice, were sentenced to be shot within 72 hours. Neither showed any emotion when sentence was passed, but there was loud applause from the crowd in the court room and cries that the sentence should be carried into effect immediately instead of waiting 72 hours.

Canadian Cattle Exported

Ottawa.—Since the British embargo was removed (and up to May 31) 10,190 store cattle and 5,244 butcher cattle have been exported to Great Britain, says the department of agriculture. Of that number, approximately 11,500 were killed from Ontario, and 3,900 from the western provinces. All were sold at strong prices.

Favorable Crop Prospects Are Reported From The Three Prairie Provinces

Winnipeg.—With growth generally satisfactory and favorable weather conditions during the past week, the crop throughout the three prairie provinces is making good headway, states the weekly crop report issued by the Agricultural Department, Canadian Pacific Railway. There is very little cotton damage reported, but grasshoppers are prevalent in certain districts, principally in Saskatchewan and Alberta. The damage is not yet extensive, there is an ample supply of poison material, and mixing stations are being established where necessary.

Manitoba has experienced excellent crop weather during the past week and seedling is almost completed. The recent precipitation and recent heat has brought the crops along quickly. Pastures are in good condition. Manitoba crops are not suffering from grasshoppers.

Seeding of coarse grains in Saskatchewan is rapidly nearing completion. Barley grain is up six to eight inches and is sturdy and of good color. Hot weather has brought out grasshoppers in large numbers, particularly west of Assiniboia and in the territory east of Vancouver.

Nearly all sections of the province of Alberta experienced heavy rain during the week, the report says, particularly in the north where it was badly needed. Seeding is entirely completed and crops are doing well. Grasshoppers are causing some concern in the southern portion of the province and as far north as Medicine Hat.

On the Edmonton, Dunes and

Will Advertise

Canadian Product

Canadian Binder-Twine for the King's Estate

Welland, Ont.—A shipment of red binder twine has been made by the Plymouth Cordage Co. of Welland, to their agents at London, England, for use on the estates of King George. The order, the first of its kind received from His Majesty in Canada, amounts to ten bales, or 500 pounds, and was ordered through the agency of the Plymouth Cordage Co.

While the order is perhaps small, it is a big advertisement for Canada and places a Canadian product in the hands of His Majesty.

Employment Offices

In Saskatchewan Busy

Nearly Thousand Given Work During One Week

Regina.—Work was found for 338 persons by the employment service offices in the province during the week ending June 2, including a total of 338 farm hands. Vacancies unfilled at the end of the period numbered 551, and applicants registered as unemployed 269.

The placements by offices were as follows: Regina, 219; Saskatoon, 283; Moose Jaw, 240; Swift Current, 50; Weyburn, 25; Yorkton, 27; Prince Albert, 20; Estevan, 28; North Battleford, 27; Melfort, 2; and Kerrobert, 4.

Heavy Wind Starts Forest Fires Again

Officials Fear Most Serious Timber Losses in New Brunswick

Fredericton, N.B.—Fanned to red-hot fury by heavy winds, brush and forest fires in the northern districts of New Brunswick have been raging again to such an extent as to cause serious apprehension upon the part of officials of the Department of Lands and Mines here, that the losses on timberlands may be the most serious in the history of the province.

Investigation Of Combines

Ottawa.—The House of Commons accepted the Senate amendment to the bill to provide for the investigation of combines and mergers. The amendment provides that the complaint to be filed with the Government to initiate inquiry must be made in the form of a solemn statutory declaration.

Ready To Construct Fort Alexander Line

Railway and Pulp Mills Will Employ 2,000 Men

Winnipeg.—J. D. McArthur, Winnipeg, head of the Fort Alexander Railway Company, has closed negotiations with a Montreal syndicate for the flotation of a \$3,000,000 bond issue, and work on the line from Beaulieu, on the Canadian National's Grand Beach railway, to Fort Alexander, where pulp mills are to be erected, will be rushed, according to news from the east. A million and a half of the bonds will be preferred, it is stated, and Mr. McArthur will secure \$1,000,000 worth. There will also be common stock.

It was announced by Donald A. Ross, member for St. Clemente, who sponsored, in the Provincial Legislature, the act incorporating the Fort Alexander Railway Company, that already a good start has been made toward the construction of the line and pulp mills, and that when the enterprise is an accomplished fact, about 2,000 men will be employed in cutting pulpwood, running the mills and operating the railways.

Amusing Derby Incident

Premier Baldwin Refuses to Adjourn Parliament to Attend Races

London.—There was an amusing Derby incident in the House of Commons when a member inquired whether, in view of the fact that a select committee of the House had accepted the invitation of the Jockey Club to visit Epsom, the Premier would consider the advisability of reverting to the ancient custom of adjourning the House on Derby day so as to give the honorable members an opportunity of studying the possibilities of the proposed betting tax.

Premier Baldwin replied in the negative amid cries of "oh."

Cattle Bring High Price

53 Head Sold at Saskatoon at Average Price of \$135

Saskatoon.—Fifty-three head of cattle, at an average price of \$135, changed hands at the auction sale here under the auspices of the Saskatchewan Cattle Breeders' Association. The sale, which was declared to have been the most successful of any held so far this year in the prairie provinces, was topped by two Shorthorn bulls, bred by W. A. Paul, of Gowan, Sask. Sherry Marquis, grand champion of his breed in the show which preceded the sale, fetching \$285, and his full brother, a yearling, bringing \$280. Sir Hereford bulls averaged \$145.75.

Although the Provincial and Federal Governments were represented at the sale by agents, nearly all the buying was done by farmers.

U.S. President to Speak in Vancouver

Washington.—President Harding will make 14 addresses on route to the Pacific coast on his Alaskan trip and will speak in five coast cities after returning from Alaska, according to an official announcement of the executive itinerary made public at the White House. Returning from Alaska the President will speak in Vancouver, July 28.

Would Postpone Union Action

Toronto.—A suggestion that the Church of England defer action in connection with church union until the great bodies which have settled it to their own complete satisfaction was advanced by Bishop Sweeney at the opening of the synod of the diocese of Toronto.

WESTERN EDITORS

Advisory Committee

For Empire Conference

Will Draw Up Programme and Assist During Proceedings

London.—Sir Eric Geddes, of the Federation of British Industries; Sir Ernest Glover, of Glover Brothers, shipowners, ship and insurance brokers; London; Arthur Balfour, master cutter, Sheffield; and J. W. B. Pease, deputy chairman of Lloyd's Bank, Limited, have consented to act as an advisory committee to draw up a programme for the coming imperial economic conference and to assist during the conference proceedings. This is in response to an invitation to them from Sir Philip Lloyd George, president of the Board of Trade, to undertake this work and follow a precedent set at the general conference.

Gotham Burglars Make Maul

\$70,000 in Gems Is Secured By Bandits In Bold Raid

New York.—Four armed bandits entered the jewelry store of Barnett Goldstein here, held up the proprietor's son and a clerk, and escaped with \$70,000 worth of jewelry. Young Goldstein and the clerk were alone in the store. The bandits bound the pair with picture wire, filled a satchel with the most expensive gems in the shop, and hurried off to a waiting automobile.

New Zealand Must Share Naval Expense

Will Help Support Singapore Station, Says Premier Massey

Wellington, N.Z.—Addressing a public meeting Premier Massey said New Zealand would have to do more for naval defence. The Dominion could not sit back and let the English taxpayer bear the whole extra expense of the proposed Singapore naval station. New Zealand and Australia would have to bear their share of the cost, he declared.

Will Meet Payment

New York.—Great Britain is understood to have purchased Liberty bonds and established dollar credits here sufficient to meet the next instalment of \$30,000,000 on her war debt to this country, due June 18.

Adopt Amendments To Interest Section Of The Bank Act

Messages Transmitted

In Sender's Writing

Facsimile Reproduction Made Possible By Frenchman's Invention

Paris.—Telegrams transmitted in the sender's own handwriting can be sent over two telegraph lines open to the French public for this purpose, one between Paris and Lyons, and the other between Paris and Strasbourg. The invention which renders this possible is due to M. Belin, the Frenchman who perfected the system of the telegraphic transmission of photographs.

The sender of a teleautogram writes his message with a special ink. The message is then placed on a rotating cylinder in the "teleautogram" apparatus at the central office in the Rue de Grenelle. A needle is in contact with the cylinder connected with the telegraphic circuit.

The circuit is broken every time the needle touches the handwriting and the movement is reproduced on a synchronized receiving cylinder at the other end, at Lyons or Strasbourg. The receiving cylinder will show fully a facsimile reproduction of the "teleautogram."

British Capital Forthcoming

Assurances Given Vancouver Trade Delegates at Hull

London.—"Canada need have no fear of not getting capital from England so long as the investors are at threat security and assurance that there will be no confiscation of British capital," declared President Dumoulin of the Hull Chamber of Commerce, in welcoming the Vancouver trade delegation. He said he hoped Hull would get a direct line of steamers plying between that city and Canada. Hull possessed some of the largest ship mills in the world, he added.

One of the members of the touring trade delegation stated that the five per cent. preference granted by Canada to British traders was not sufficient when the Canadians had to meet competition from the United States. The Vancouver delegation later visited Manchester.

Penny Postage For New Zealand

Wellington, N.Z.—The New Zealand Government announces its decision to reintroduce penny postage. The Government intimates also that it expects to reduce the income tax so as to make the maximum tax 60 pence on the pound instead of 88 pence as at present.

New Reparations Offer Made By Germany Will Be Considered

Berlin.—The life of the Cuno cabinet depends on the reception of the new reparations offer, now on its way to the Allied capitals. In the face of strenuous opposition from many sides, because of failure to reach some conclusion with the Allies that will lift Germany's present burden, Chancellor Cuno is understood to have proposed:

1—Payment of approximately a billion and a half gold marks yearly.
2—Settlement of the exact terms to be left to an international conference. Contents of the document will be officially divulged upon receipt by the Allies.

It is learned authoritatively that Cuno has proposed the reparations amount be raised in the following ways:

Consumption taxes on such commodities as tobacco, sugar and brandy, and a customs monopoly on the same three. These taxes, it is estimated, would provide 400,000,000 gold marks a year.

Flotation of a gold mortgage amounting to 10,000,000,000 marks at five per cent. interest against the railways, yielding 500,000,000 gold marks annually.

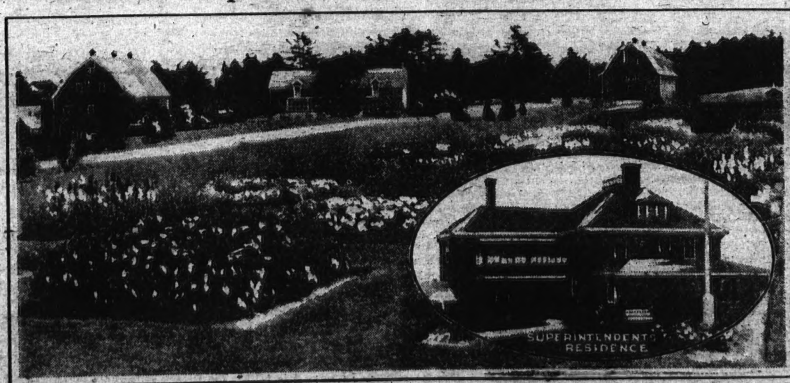

Legal mortgages on industries, factories, land owners totalling possibly 10,000,000,000 gold marks, which it is contended would yield another 500,000,000 gold marks a year.

A special property tax which it is hoped would provide 100,000,000 gold marks a year.

As a safeguard on these sources of revenue, the note says the German Government reserves the right to provide funds from any other source, should any of the mentioned fail.

The note suggests that final settlement of such a great question as reparations cannot be reached through interchanges of notes; hence it is advisable to summon a conference to discuss differences.

Dominion Experimental Farm In Land Of Evangeline

This picture of the Dominion Experimental Farm, near Kentville, N.S., is typical of the district. A fertile country, richly wooded, and in topography rolling back from the coastline in such a manner that from almost every height and knoll delightful views and panoramas present themselves. There is situated, and each year it is becoming more popularly known to tourists, particularly to those of America to whom it was made known by Longfellow.

ORGANIZING FOR JULY 2-3

An enthusiastic meeting of those interested in the programme for the July 2nd and 3rd demonstration at Blairmore was held on Tuesday night at the Greenhill hotel.

Mr. W. H. Chappell acted as chairman of the meeting, while Mr. W. Bird performed the duties of secretary.

The following executive and committees were appointed:

President—Mr. D. G. Mackenzie.

Hon. President—Mr. J. Charbonnier.

Hon. Vice-Pres.—P. M. Christophers, M.L.A., Mayor McLeod and Mr. G. A. Vissac.

Chairman of general executive and sports committee—Mr. W. H. Chappell, junior.

Vice-Chairman—Mr. L. Dutil.

Secretary-Treasurer—Mr. W. Bird.

Field Organizer—Mr. James Turnbull.

Field Secretaries—Messrs. P. C. Montalbetti and J. R. Gresham.

Football—C. Thomson and J. McGee.

Baseball—J. Milne and J. E. McLeod.

Basketball—W. T. Young and J. Foreman.

Golf—E. Whiteside and A. J. Kelly.

Tennis—R. G. Foote and H. M. Bennett.

Police—Corporal Duncan, of the A. P. P.

Dances—M. Pruden, J. Milne, P. C. Montalbetti, J. Loto, H. H. Griebach and A. J. Kelly.

Field Committee—J. A. McDonald, D. M. J. Conway and A. J. Kelly.

In all likelihood the open golf tournament will be played on Saturday or Sunday, June 30th or July 1st, so as not to detract from the sports field on the 2nd and 3rd.

The programme will be completed in a few days, and will provide for even a greater event than that of two years ago. The mine rescue and first aid competitions however, are the chief attractions, being of interest to all mining camps in District Eighteen. We understand that already no less than thirteen entries for mine rescue are in the hands of Mr. Crowder.

It is hoped that the weather man will do his utmost to favor us with suitable weather for the occasion, for two fine days and nights are needed to ensure success.

It was decided that concessions for refreshment booths be granted for a fee of \$15 each to local citizens. The fee for travelling booths, slot machines or other legalized games, of chance will be \$50.

Out of 12607 women students who have passed out of Oxford University, only 657 have married.

The remains of Mrs. W. G. Askey were laid to rest in the Pincher Creek cemetery on Sunday afternoon last.

The Gibeau "skyscraper" at the junction of the Hillcrest-Bellevue highways, will be ready for occupation on or about July 4th.

A. Comfort is down from Creston this week. He reports prospects good for the fruit crop in the Creston district this year. He has already found a good market for strawberries and is now marketing his cherry crop.

WANTED—A live whole-time District Agent to represent the EXCELSIOR LIFE INSURANCE COMPANY in the Pass towns. A very attractive contract will be given the right man. Apply S. N. Caracellan, Manager, Union Bank Building, Calgary. 14-21

FOR RENT—Five-roomed House, with bath. \$30 month. Apply to The Enterprise. 7-11

FOR SALE—Four Fresh Milk Cows, with calves. Apply to the Home Bakery, Blairmore. 7-44

SNAP FOR CASH—A Piano, in good condition. Apply to Mrs. B. A. D. Hamilton, Phone 16-4, Bellevue.

A. M. Denness, of the Lundbreck Trading Co., was in town on Monday evening.

Annee E. Manuel Forget, a member of the Canadian senate, representing Alberta, died at Ottawa on Friday morning last, aged seventy-five years.

Rev. J. P. Grant, pastor of the Presbyterian church at Pincher Creek in 1888-89, and one of the charter members of Pincher Creek Lodge No. 5, I.O.O.F., died at Webb, Saskatchewan, a few weeks ago at the age of sixty-nine years.

A field day will be held at Lundbreck on Saturday, June 30th. Sports will consist of all kinds of foot races, tug-of-war and other contests, and a baseball match between Lundbreck and Tod Creek teams. A dance will follow.

Service at St. Luke's Anglican church on Sunday last was conducted by Rev. W. J. Merrick, rural dean of Macleod. Mr. Merrick's services on Sunday were taken by Mr. A. W. Neale, of Blairmore.

During the week two local parties appeared in the magistrate's court, one charged with the theft of a town electric light pole, the other with using threatening and abusive language in or near the Mar Poy restaurant. Both were caused to pay the piper.

Charlie Lassandro was placed under arrest by the R.C.M.P. last week, charged with having entered the country by stealth. Charlie later was represented before the court by Mr. L. H. Putnam, solicitor, and was remanded for trial and let out on bail of \$500. Lassandro, it appears, gained unlawful admission into Canada and will likely be deported to Italy.

The election of officers at the annual convention of the Alberta and Eastern British Columbia Press Association at Jasper, resulted as follows: President—John Mackenzie, Strathmore Standard; First Vice-President—John Torrance, Lethbridge Herald; Second Vice-President—L. D'Albertainson, Chauvin Chronicle; Secretary—L. D. Nesbitt, Bassano Mail; Executive—John M. Imrie, Edmonton; E. Stone, Redcliff; George Gordon, Ponoka; Mrs. Annie Derrett, Pincher Creek; G. C. Duncan, Drumheller.

The title "Reverend" has been conferred upon Dr. Lovering, M. D., of Lethbridge, by the Vancouver Sun.

Judge Jackson, president of the A. A. U. of C. is out to organize basketball along national lines.

An efficient wife is one who can get her work done in time to take a nap or have a nice cry in the afternoon.

The Lethbridge Brewery Co. has donated a beautiful cup for competition in the Crows' Nest Baseball League.

Putnam says "the only difference between Mutz and Sick is that you can't get Mutz, but you can get Sick."

Owing to the heavy rain and hail storm on Monday evening, the baseball game—Blairmore versus Coleman—had to be postponed.

Lipstick and marceles, powder and paint. She looks like a beauty, but maybe she ain't.

The annual reunion banquet of the members of the 54th Kootenay Battalion was held at the Napa Ice hotel, Fernie, on Saturday evening last.

Mr. Owen Williams, B.A., who has been inspector for the Cayston district until lately, has been appointed principal of the Coleman school, his duties to begin in September.

Pass authorities are watching for an opportunity to grab the provincial road gang for "exceeding the speed limit," but there's evidently no chance.

Mr. Ringland, who for the past two seasons has been ice maker and general manager at the Blairmore arena, is now operating a daily stage line between Macleod and Waterton Lakes.

Corporal Duncan and family, who were driven from their home at the barracks by the recent flood, hope to return today. During the past two weeks they have been staying at the Greenhill hotel.

Porter Emerson Brown went into the office of Everybody's Magazine and said: "Did you hear about the man who died the other day and left all he had to an orphan asylum?" "No, how much did he leave?" "Twelve children."

A Lush, head of the Montana drif squad, has been obliged to visit Lethbridge and other points in the province in connection with the illicit booze traffic between Alberta and Montana, arising out of the Shelby fight for July 4th.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF HAROLD MAGGS, LATE OF THE TOWN OF BANKHEAD, ALBERTA, MINER, DECEASED.

Notice is hereby given that all persons having claims upon the estate of the above named HAROLD MAGGS, who died on the Eighth day of February, 1923, are required to file with the undersigned by the Fifteenth day of July, 1923, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the Public Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to his knowledge.

DATED This First day of June, 1923.

THE TRUSTS AND GUARANTEE COMPANY, LIMITED.

Public Administrator, 220 Eighth Avenue West, Calgary, Alberta, Canada.

H. A. HOWARD, Manager.

For funeral services phone 212. Crows' Nest Pass Undertaking Co.

Chow Sam, proprietor of the Silver Grill restaurant at Macleod, was in Blairmore on Friday last.

Several California and Washington cars were shipped east and west through this district during the week.

Man is an able creature, but he has made 32,647,389 laws and hasn't yet improved the Ten Commandments.

Thomas Longworth has again been elected president of the Lethbridge G. W. V. A.

Dr. C. P. F. Conybeare, of Lethbridge, has been chosen president of the Alberta moderatians.

Really, the reason babies cry is because everyone says they look like papa.

A closet is a place where you keep things you are ashamed to wear and to stinky to give away.

Councillor J. A. McDonald was a visitor to Lethbridge last week, the guest of the Northern Electric Co.

The man who said ignorance was bliss never was caught five miles from town with an empty gas tank.

The title "Reverend" has been conferred upon Dr. Lovering, M. D., of Lethbridge, by the Vancouver Sun.

Judge Jackson, president of the A. A. U. of C. is out to organize basketball along national lines.

An efficient wife is one who can get her work done in time to take a nap or have a nice cry in the afternoon.

The Lethbridge Brewery Co. has donated a beautiful cup for competition in the Crows' Nest Baseball League.

Putnam says "the only difference between Mutz and Sick is that you can't get Mutz, but you can get Sick."

Owing to the heavy rain and hail storm on Monday evening, the baseball game—Blairmore versus Coleman—had to be postponed.

Lipstick and marceles, powder and paint. She looks like a beauty, but maybe she ain't.

The annual reunion banquet of the members of the 54th Kootenay Battalion was held at the Napa Ice hotel, Fernie, on Saturday evening last.

Mr. Owen Williams, B.A., who has been inspector for the Cayston district until lately, has been appointed principal of the Coleman school, his duties to begin in September.

Pass authorities are watching for an opportunity to grab the provincial road gang for "exceeding the speed limit," but there's evidently no chance.

Mr. Ringland, who for the past two seasons has been ice maker and general manager at the Blairmore arena, is now operating a daily stage line between Macleod and Waterton Lakes.

Corporal Duncan and family, who were driven from their home at the barracks by the recent flood, hope to return today. During the past two weeks they have been staying at the Greenhill hotel.

Porter Emerson Brown went into the office of Everybody's Magazine and said: "Did you hear about the man who died the other day and left all he had to an orphan asylum?" "No, how much did he leave?" "Twelve children."

A Lush, head of the Montana drif squad, has been obliged to visit Lethbridge and other points in the province in connection with the illicit booze traffic between Alberta and Montana, arising out of the Shelby fight for July 4th.

A narrow mind is one that has not had wide experiences.

An examination for firebosses' certificates was held in Blairmore yesterday.

It is estimated that there are now enough chances for easy money to keep our jails occupied until 1927.

The Pythian Grand Lodge will meet at Calgary on the 24th and 25th of July.

The other day we noticed two old "hens" at the depot, each sitting on 60 dozen eggs. Results later.

The government has decided to prohibit further manufacture of oleomargarine in Canada.

Mrs. D. F. Fleming received word last week end of the death of her mother, Mrs. Egan, which occurred in Nova Scotia.

Bellevue Oddfellows and Rebekahs celebrated Memorial Day on Sunday last by decorating the graves of deceased members of the order.

Mrs. Steve Rosia, Mrs. Fred Henson and Mrs. James Cousens, of Bellevue, were visitors to this city on Monday.

Rev. W. T. Young returned from Edmonton last week end, where he attended the Alberta Methodist conference.
